

BRAD BISSELL

Vice President

Brad joined Kidder Mathews in 2011. He specializes in retail leasing and sales, focusing on both tenant and landlord representation. His leasing experience ranges from small boutique space to big box and regional power centers. He prides himself in guiding his clients through the entire deal process, from site identification and prospecting to lease negotiation and delivery. His sale experience has involved buyers and sellers needing owner/user and cash flow investments. Brad has also successfully sold land in areas prime for commercial development.

The territorial focus of his work has expanded into both urban and suburban markets across the Puget Sound. His market knowledge is built upon an extensive database and thorough analysis of trends, allowing him to educate clients in current market values and opportunities. He approaches each project as a teammate with a partnership mentality. The goal of achieving a successful transaction and maintaining a strong relationship are always his primary motivation.

Although Brad has always been active in team sports, his attention now is focused on outdoor activities such as hiking, skiing, golf, and fly fishing.
