

MICHAEL DOMANICO

Senior Vice President

Michael is a member of a team of life science and biotechnology professionals that provide leading-edge real estate solutions that have proved effective in reducing costs, improving productivity, and increasing flexibility of their clients' real estate commitments. The team's experience in brokerage, facilities management, construction management, finance, and space planning enables them to provide effective real estate solutions and services to small and large companies alike. Michael's comprehensive understanding of the real estate market needs make him highly qualified and capable of providing a unique and valuable service to his clients.

Michael worked as a credit risk analyst at Square, Inc. for three years before joining Kidder Mathews. As a peninsula native, he has developed a strong knowledge base and a familiar understanding of the peninsula market.
